

## FMCSA mandated electronic driver logs

**Avoid violations**   **Team driver support**   **Improve CSA scores**

# Hours Of Service

*Instantly compliant with current and final regulations*

### **Driver-compliance Dashboard**

On our streamlined, color-coded dashboard service, all of your drivers are listed according to their available time left before committing a violation. The closer they are to a violation, the more prominent they are on your dashboard.

### **Support for team drivers**

Our HOS solution supports team drivers logged on the same Android mobile device and maintains each driver's record separately.

### **Avoid violations and improve scores**

Drivers will always be aware of the remaining driving and ON-DUTY time before incurring any violation.

### **Real-time HOS information at your office**

Every driver status change is sent to our servers and is available in real-time from any web browser.

### **Improve productivity and efficiency**

Directly communicate (chat) with drivers, provide route information and turn-by-turn navigation. Customizable forms provide you with canned responses to minimize driver distraction.

# COMPLIANT WITH

Location recording for vehicle's engine On/Off and every 60 minutes if vehicle is moving

60-hour/7-day or 70-hour/8-day rules
